10

Basic Procedure of Security Export Control

11

Technology Transfer Control

Difficulty of Technology Transfer Control

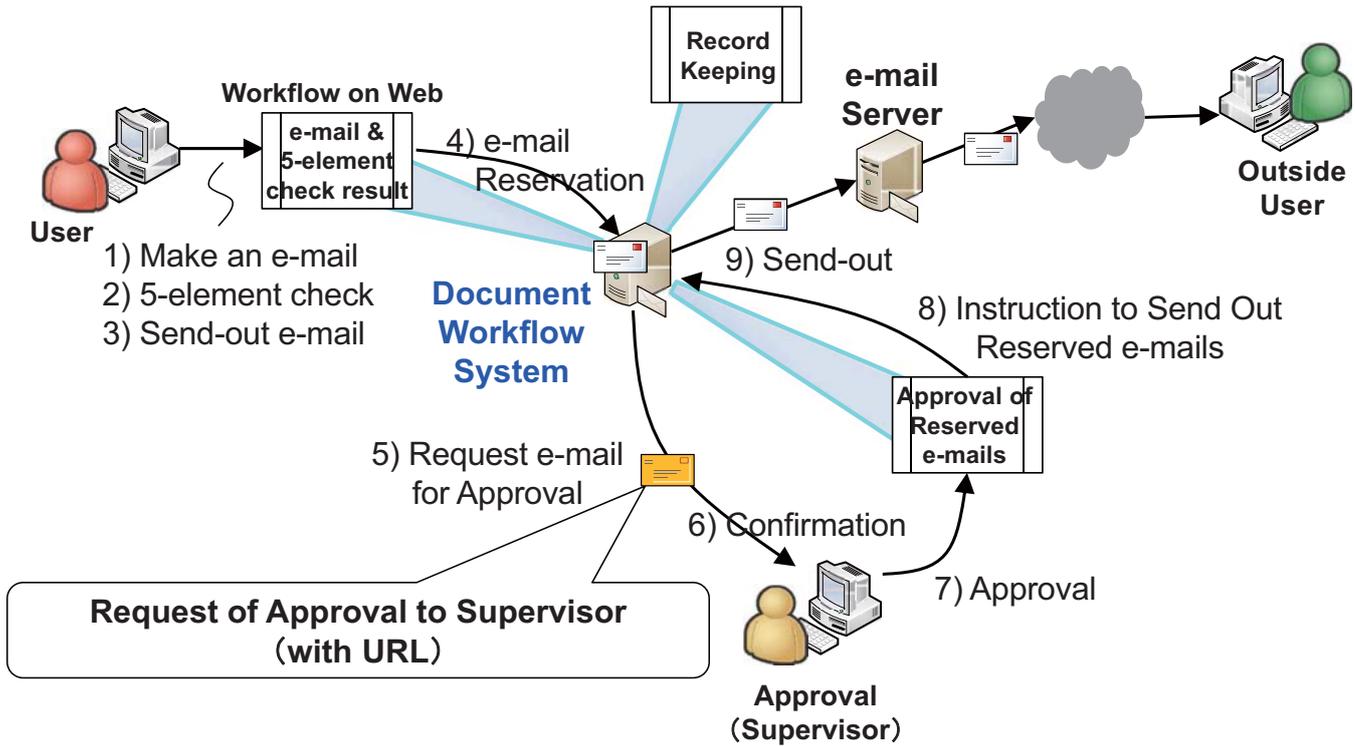

Special attention is required for Technology Transfer
 (Technology is Very Easy to Transfer and Difficult to Recall)

- All transactions are subject to Security Export Control
 - Shipping of technical materials or delivering them in person
 - Providing technology through electronic method such as e-mail
 - Providing technology through oral communication
 - Providing technology through visual inspection such as factory visit
- Procedure
 - Technology Transfer can be started after transaction screening
 - All transactions, including intangible transfer, need approval by managers who are responsible for the transaction (Transfer)
- Focal subjects
 - Methods of transaction screening & transfer control for intangible transfer through electronic and oral communication
 - Approval of transaction screening, and record keeping of evidence materials
 - Approval in case of emergency or absence of manager

12

Technology Transfer Control

Situation: Providing technical data to overseas customers by e-mail
An Example using "Document Workflow System"

- 2) Classification of materials which may contain technology to be transferred
- 3) 5-element check
- 4) Register 5-element check result in Business Trip Workflow System (overseas)
- 5) Approval by a manager

- 6) Technology transfer within the scope of the prior classification(2)
- 7) 5-element check need to be conducted for materials beyond scope of prior classification(2) (approval shall depend on result of the check)

- Tools are useful to assist SEC procedure
 - Stop & consider for SEC procedure
 - Prevent mis-transfer by careless mistake

- Education & training is a key
 - SEC procedure never be conducted automatically, even if tools are used. It should be done by human.
 - It is important to provide sufficient Education & training for persons in charge of SEC, in order to avoid misjudgment or mis-screening.

Thank you for your attention.
